Complexities of Pain Management

Program Objectives

- Discuss factors that contribute to the current opioid epidemic and ways to mitigate risk of misuse, diversion and abuse
- Describe factors that contribute to disparities and/or inequalities in pain management and the strategies used to minimize these disparities
- Discuss approaches to dealing with disruptive behaviors in health care facilities relevant to pain management and substance use disorder

Three expert health care providers will address specific issues relevant to the complexities of pain management. Each expert will address the pain experience through a different lens; thus, providing a comprehensive approach to dealing with the many facets of pain management.

Complexities of Pain Management

Learn about the current and most effective approaches to managing pain, the disparities that exist in pain management, and the association between pain and disruptive behaviors.

Our speakers present a multidisciplinary approach to this topic.

Keynote

Judith Paice, PhD, RN

Director, Cancer Pain Program
Research Professor of Medicine
Feinberg School of Medicine
Northwestern University

Judith Paice, PhD, RN is Director of the Cancer Pain Program in the Division of Hematology-Oncology and a Research Professor of Medicine at Northwestern University; Feinberg School of Medicine.

Much of Dr. Paice's clinical work is in the relief of pain associated with cancer and HIV disease. She travels widely throughout Asia, Africa, Russia, and many other countries to educate health care professionals regarding cancer pain relief and palliative care.

Dr. Paice is a member of the Robert H. Lurie Comprehensive Cancer Center, served as President of the American Pain Society and as Secretary of the International Association for the Study of Pain. She serves on the editorial board of the *Journal of Pain* and the *Journal of Pain and Symptom Management* and is the author of more than 150 scientific manuscripts. She was an original consultant in the End of Life Nursing Education Consortium (ELNEC) and currently serves as a faculty member.
